Experience

UI Developer - Fluke Corporation

March 2023 - Present

- Collaborated closely with stakeholders to drive the successful implementation of new projects and updates.
- Handled day to day operations to ensure positive customer interactions to millions on a global scale.
- Thoroughly tested code to verify expected outputs and validate data integrity, ensuring quality and reliability.
- Utilized HTML, CSS, JavaScript, jQuery, and Drupal to create new pages and implement updates for thousands of daily users, ensuring optimal website performance and user satisfaction.

Web Developer - Leap Forward

December 2022 - March 2023

- Led the development of a responsive website utilizing HTML, CSS, JavaScript, and Bootstrap, resulting in a user-friendly experience across all devices and platforms.
- Developed and implemented responsive webpages based on provided mockups, utilizing current web development technologies.
- Designed and incorporated custom graphics into the developed website, elevating its aesthetic appeal and user engagement.
- Led technical efforts in the launch of a new business, successfully resolving various tech-related challenges and ensuring smooth operations.

Web Developer Intern - Deaf and HoH

July 2022 - March 2023

[DeafandHoH Website](#)

- Ensured website relevance by proactively incorporating the latest information and technology advancements.
- Created and launched responsive webpages by converting mockups into live pages using WordPress, HTML, and CSS.
- Developed custom graphics for integration into the website and email communications, resulting in increased brand recognition and engagement.

Code Coach/Administrative Assistant - theCoderSchool

November, 2020 - August, 2022

- Provided individual and small group instruction, teaching students concepts and skills in programming languages including Python, C#, C++, Javascript, and HTML/CSS.
- Managed and conducted coding camps for students aged 7-13, with a curriculum-based lesson plan tailored to the theme of the camp.
- Utilize Excel sheets and documents to effectively organize and manage large amounts of information.
